Figma, Adobe Photoshop, Adobe Illustrator, Adobe AfterEffects

## Languages

- English Native
- Japanese Conversational
- Tagalog Fluent

# SENIE CALALANG

セニー・カララング

## Full-Stack Web Developer

### Profile

Full-Stack Developer with a background in design, customer experience and teaching. Currently interning at Sustainability Page as a front-end developer, where I build accessible, responsive features using React and TypeScript. I'm also a Le Wagon Tokyo graduate and the founder of TokyoScene, a music event discovery app built with Ruby on Rails. I started the project during the bootcamp and continue to develop it today with a small team alongside my internship. I enjoy working in fast-paced, collaborative environments and am looking for a role where I can grow as a developer and make a meaningful impact.

## </> Web Development Projects

### Sustainability Page

[sustainabilitypage.com](https://sustainabilitypage.com)

#### Front-End Developer (Internship)

Contributed to a sustainability-focused platform by maintaining and enhancing their website using React and TypeScript, with a focus on performance and UI improvements.

### TokyoScene

[tokyoscene.me](https://tokyoscene.me)

#### Lead Developer

A web-based event aggregator using Ruby on Rails, that utilises Spotify data to recommend live music events in Tokyo based on the user's favourite artists and genres.

## Work Experience

Dec 2024 - Present

### Sustainability Page

#### Front-End Web Developer (Intern)

Tokyo, Japan

Developing and maintaining Sustainability Page's website using React and TypeScript, improving UI and accessibility across key user flows.

- Problem-solving:** Identified and fixed front-end issues using React and TypeScript, improving site usability and consistency across components.
- Collaboration:** As a member of the development team, implemented accessible, responsive UI updates in a fast-paced startup, aligning code with design specs and product priorities.

Dec 2020 - Present

### Eimeikan Junior-Senior High School

Tokyo, Japan

#### Assistant Language Teacher - JET Programme

Designed conversation lessons and ran extracurricular activities to enhance students' English language skills and cultural understanding.

- Communication:** Conveyed complex ideas to students with varying English proficiency, strengthening cross-cultural and team communication skills.
- Project management:** Successfully organised and led extracurricular activities, coordinating resources and schedules to ensure smooth execution.

Jan 2019 - Nov 2020

### Australia and New Zealand Banking Group

Melbourne, Australia

#### Customer Service Consultant / Resolutions Officer

Promoted from Customer Service Consultant to Resolutions Officer, progressing from general banking enquiries (accounts, cards, transfers) to resolving escalated complaints with clear communication and problem-solving.

- Analytical thinking:** Investigated root causes of customer issues and implemented effective solutions.
- User empathy:** Developed a deep understanding of customer needs and pain points, learning to balance urgency with thoughtful, long-term problem-solving.
